# SPEED FEEDER PM

The newest addition to our profitable line of Perforating & Scoring equipment. The new Speed Feeder™ equipped with a PerfMaster output unit can make large Perf & Score jobs a snap. The Speed Feeder PM delivers Perforating & Scoring with 100% accurate registration. Load up to 24" of Stock from 2-1/2" w x 3-1/2" to 18' w x 20" and run 8-1/2" sheets at speeds up to 30,000 sheets per hour!

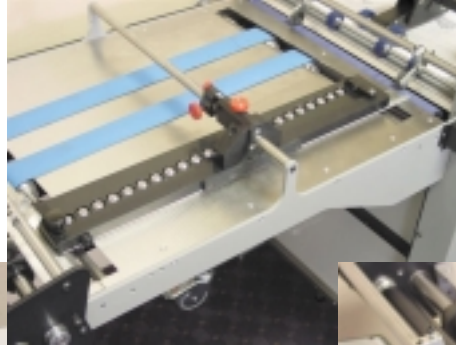

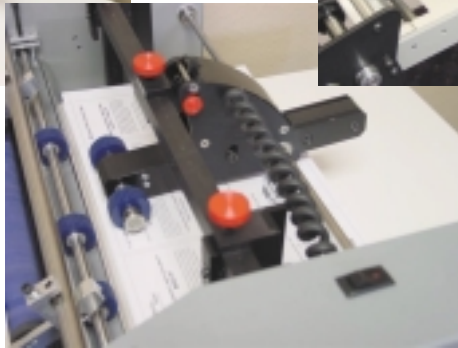

## COUNT ON...PILE FED FOR CONTINUOUS FEED

Easily loads up to 24" of stock.

## INNOVATIVE FEED SYSTEM

Count's new TOP FRICTION FEED is the most innovative feed system on the market, feeds carbonless to glossy with no marking at unheard of speeds.

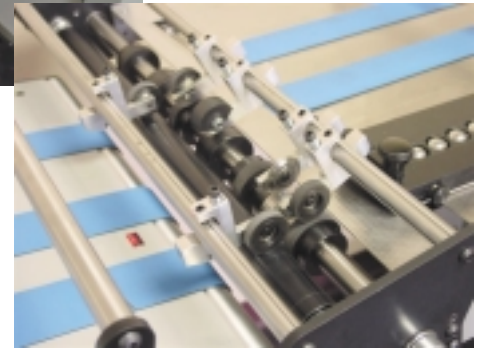

## COUNT ON...ACCURACY

30" Register guide insures 100% accuracy on any size sheet and an edge ratio of 4:1.

## COUNT ON...FAST & EASY SETUP

The PerfMaster output unit allows for fast set-ups and change overs in Perf & Score configurations.

## PERFORATE & SCORE:

- Quickly change from Perf to Score in a matter of seconds.
- Adjustable depth Score, controls depth of score to 1/1000th of an inch
- With many blade choices to choose from: 4 tpi - microperf
- Specialty heads for Micro-Perfing and Scoring of digital stocks also available.
- Designed for ease of operation.

## SPEED: (depending upon sheet size and operation)

- Perforating/Scoring: 8 1/2" x 11", up to 30,000 sph.
- Output Speed: Variable up to 40,000 sph

## SPECIFICATIONS:

- Maximum Sheet Size: 18" X 20"
- Minimum Sheet Size: 3" X 4"
- Maximum Pile Height: 24" Vertical stack
- Electrical: Standard 110 V Single phase

## WARRANTY

Count warranties all new machines against defective parts and workmanship. One year warranty on electrical and mechanical parts.

The **Speed Feeder PM** comes standard with • PM Output • 1 perf assembly 9-1 • 1 microperf assembly • 2 score assemblies • pile-feeder.

*Specifications are subject to change without notice and without incurring responsibility to existing units.*

## ECM COUNTER OPTIONAL:

The electronic Control Module is added to provide greater control of your jobs. By adding the ECM you gain: Total Count, Batch Counter, sheet Spacing, and adjustable timing between batches.

## SIDE REGISTER:

The Speed Feeder PM delivers perfect registration starting from the top of the stack at the very first sheet all the way though to the very last sheet. Our 30" Register guide delivers perfect registration though out the paper path and keeps it moving quickly and reliably.
